BE1230

Features

Discreet vibrations
Silent and non-intrusive

Clear signal identification
Uses LEDs and vibration patterns

Lightweight and portable
Wear it on the belt

Replaceable front label
Easy to customize

Optional charger accessory
With two bed shaker jacks

Fits your day, and your pocket.

The pager receiver from Bellman & Symfon is part of the Visit smart home system that helps you to keep tabs on your home. It alerts you with gentle vibrations when the doorbell or telephone rings, when your baby needs you or if a fire should occur.

The pager uses colored lights to differentiate the Visit signals and runs for up to three weeks on a single battery. It is robust and lightweight

and can be attached to your belt or tucked away in your pocket. Use it in and around the house to know whenever something happens that needs your attention.

The pager charger accessory features battery backup and outlets for two bed shakers. Just place it under your pillow or mattress to be alerted with vibrations if something happens during the night.

Technical specifications

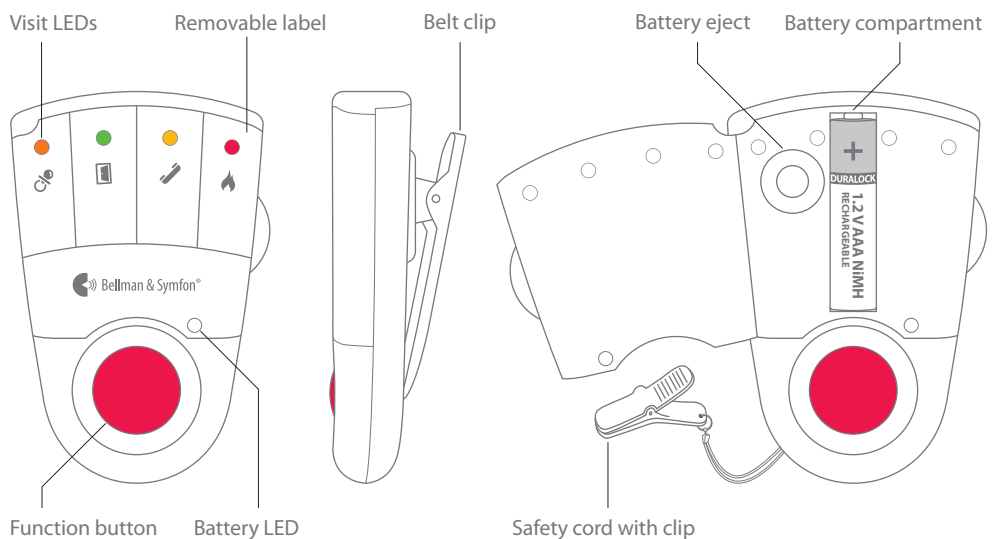

Dimensions and weight

Height:	86 mm, 3.4"
Width:	57 mm, 2.2"
Depth:	29 mm, 1.1"
